PROJECT DETAILS

Solaris Bucks, the official cryptocurrency of the Solaris Buzz Ecosystem, is built on the Solana blockchain to revolutionize the incentive industry. By rewarding users for completing tasks, participating in gaming activities, and engaging in various digital actions, Solaris Buzz aims to address global unemployment. Leveraging the multichain Wormhole bridge technology, Solaris Bucks can be claimed, stored, and traded across multiple blockchain networks, including Ethereum, BNB Chain, Base, Polygon, Arbitrum, Avalanche, and Optimism. This ensures seamless interoperability across different blockchains, enhancing functionality and engagement for both crypto and non-crypto users. With a strong focus on societal impact and productivity, Solaris Buzz is poised to become a game-changer in the digital economy.

DISCLAIMER

This audit report has been meticulously crafted by the proficient team at Xcoin Tools, upon the client's request, to present the outcomes of a comprehensive static analysis and an in-depth manual review of the code. The fundamental aim of this audit is to ensure that all features perform as envisioned, while simultaneously recognizing any areas where subtle improvements could be beneficial to the contract's integrity.

The details contained within this report offer valuable insights into the overall functionality and inherent aspects of the smart contract. This document serves as a thoughtful guide for the development team, providing suggestions for potential enhancements by addressing minor findings observed during the review process.

It is essential to note that Xcoin Tools does not hold any liability in the unlikely event that a project deviates from expectations or becomes compromised by external factors. Our role is to deliver a nuanced analysis to inform your decision-making and due diligence processes.

We maintain that Xcoin Tools bears no responsibility for any financial implications that may arise. This audit is not to be construed as financial guidance, and we encourage independent exploration before any engagement.

The information in this report is purely for contextual purposes and should not be interpreted as investment direction. Xcoin Tools neither advocates nor advises specific investments in any project.

Xcoin Tools cannot assume responsibility if any project, despite thorough analysis, becomes subject to unforeseen issues such as rug-pulls or other market behaviors beyond our control.
